MTO Approves Classic Permit

For the upcoming season, MTO has approved the sale of a new Classic Permit for sleds 15 years of age and older. The permit fee is \$125. This approval from MTO requires that Classic Permits only be available for sale through the district offices. This limitation is an MTO requirement to ensure that only sleds 15 years old or more receive Classic Permits. At their recent meeting, the OFSC Board of Governors approved the process for district sales and details will be made available to clubs later in August.
